The Software
Solution

Cellular Pump Station Monitoring Software

GuardDog <superscript>WEB</superscript>BROWSER

Our GuardDog software provides a powerful and easy-to-use interface which allows users to manage their pump stations, easily view & acknowledge alarms, and analyze trends for critical machinery & equipment.

The software is 100% web-based and is included FREE with every OmniSite device.

We've been in the water and wastewater monitoring industry for over 20 years. Our expertise in knowing what our customers need is demonstrated through the functions and features of GuardDog, a software that has set the industry standard for delivering important information when you need it.

Analyze Your Station

GuardDog includes multiple ways to report and analyze trends at your pump station, such as graphing pump cycles, runtimes, GPM, and more! These trends give important insights into the health of your equipment and can help predict problems before they occur.

Access Your Equipment 24/7

Web-based technology makes it possible to monitor pump stations anytime, any place, giving plant operators peace of mind that their equipment is working properly!

Easy Setup + Assistance

Initial setup of the system is quick and easy. Within minutes, you will be creating graphs, exporting reports, performing advanced data analysis, and more.

Need help?
Our Technical Support team is available during business hours to answer any questions you may have. Contact **(317)-885-6330 X 3** or email our team at **support@omnisite.com**
OmniAdvantage Plan members have access to FREE GuardDog setup, meaning we'll do the work for you. Not an OmniAdvantage Plan member? **Call (317)-885-6330 X 137** for more information and to join the plan.

GuardDog <superscript>MOBILE</superscript>APP

Pump Station Management On-The-Go

GuardDog 2 is a companion app to our web-based interface. It allows access to equipment status from any one of OmniSite's alarm monitors. Using this app in combination with the GuardDog web interface makes it possible to monitor your equipment right from your pocket.
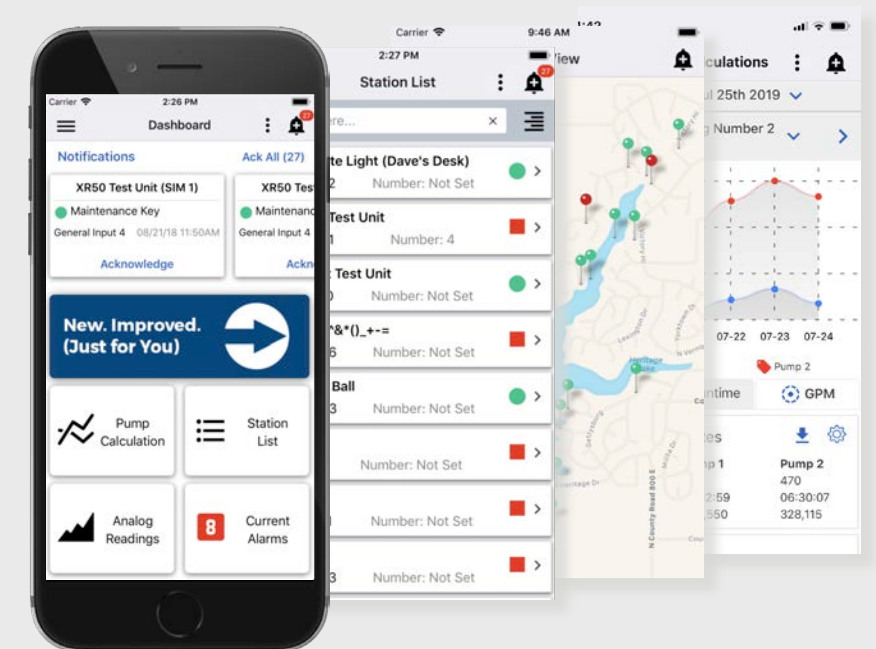

Take Spike off the Leash

Packed with Features

With the GuardDog 2 Mobile App you can:

- Know the current condition of your stations
- Acknowledge current alarms
- Track GPMs, Runtimes, and other station trends with instantly generated reports
- Enable Map View to see the exact location of an alarm
- Send Remote Commands

Do this and more from anywhere by using your mobile device.

Some features of the GuardDog 2 Mobile App are available exclusively to OmniAdvantage customers. For more information, visit omnisite.com/omniadvantage
