

## Product Tester – Part-Time (Approximately 15-29 hours during school year and maximum of 29 hours during school breaks)

---

### Who is OmniSite?

OmniSite is an industry leader in machine-to-machine (M2M) monitoring solutions providing products and services to water, wastewater, and other industries across North America. We engineer, build, and support cellular devices that help protect the environment by detecting problems before spills occur. Our products are also used to monitor a variety of other industrial equipment. OmniSite is an equal opportunity employer. Find out more about OmniSite at [www.omnisite.com](http://www.omnisite.com).

### What does OmniSite offer?

OmniSite offers a flexible schedule, paid training, competitive wages, 401k match, a friendly and casual environment, and the ability to work within one of the fastest growing industries in the country.

OmniSite operates out of its newly renovated 10,000+ square foot headquarters. Conveniently located just south of downtown Indianapolis, our building was originally built in the 1880s and now features an open concept, natural light, an exercise room, and employee café.
